Effects of interactions between anthropogenic stressors and recurring perturbations on ecosystem resilience and collapse. *Conservation Biology* (accepted 5/8/2022) [DOI:10.1111/cobi.13995]

Appendix S4. Timing of sampling in relation to fires and precipitation

The timing of vegetation (x) and soil moisture (+) sampling in relation to fire occurrence (red vertical lines, Oct 2013 and Dec 2019) and variation in monthly precipitation (thin blue line) recorded at Lithgow (Coewull) weather station (Australian Bureau of Meteorology station number 63226), approximately 12 km west of the study area.
